

Focus the essential

## Data Sheet Clipbird Windows

### Product overview

Clipbird is a video analysis software for all therapists, educators, and consultants who work with video media and often conduct detailed analyses. Clipbird primarily aims to significantly reduce the time spent in preparing analyses, such as Marte Meo video analysis, as well as to minimize the technical component in the counseling or analysis situation itself as much as possible.

### Requirements

- .Net Framework, min. 4.5
- Windows 7, Windows 8.1, Windows 10, Windows 11
- Online connection for activation to license provider <https://wyday.com>  
In this case, please check your firewall settings and adjust them if necessary. If the firewall settings cannot be adjusted, there is the option for offline activation (<https://clipbird-project.com/wp-content/uploads/2020/01/Clipbird-Offline-Activation-EN.pdf>)
- Elevated permission required on local computer for installation and updates.

### Supported file formats

.avi, .mp4, .wmv, .mpg, .mpeg, .mkv, .asf

### Features

<https://clipbird-project.com/funktionen>
